How To Make Money From Whatsapp Using SHORT-LINKS

Make money from Whatsapp using short links is among the easiest and most popular way to make money from WhatsApp, just by sending short-links to Whatsapp Users, Whatsapp Groups And Whatsapp Broadcast features.

First, here is what we mean by Short Link? Short links are shortened links to a website. A typical link to the story will usually look very long, the short link simply shortens it. Both links will lead to the same story but one is longer and one is shorter.

Using this method, all you have to do is look for news, tips or any information your contacts or group members will love to read. Copy the link, go to an Url Shortener, login, paste the link and shorten it.

Then copy the shortened one, open your WhatsApp and share it with your contacts and groups. You Can also use Whatsapp Bulk Sender to mass broadcast your links across Whatsapp.

Here is how short link works: When your contacts click on the link, it will show them some adverts before showing them the story or information. That is how you make money. so you make money from a short link by indirectly promoting other people products and services. The more shared short link and click you have the more you make money.

This will fetch you passive income if you have a large group of contacts who enjoy reading your content.

You Can [Click Here Whatsapp Bulk Sender](#) To Grab The Whatsapp Marketing Kit and Discover How To Grow A Large Group Of Whatsapp Leads

I know of a man who has a long list of WhatsApp contacts and belongs to lots of WhatsApp groups. Every morning, he will send links of headline news.

A lot of people read it. Now imagine if that man uses a link shortener. He will make good money the same way he is sharing the news. this is virtually the brain behind NNU, News-pay etc

To use a link shortener is very Easy. Go to the website, register, copy any link you want to share, log in to link shortener, past the link, shrink it. Copy the shorten link and start sharing it with your Whatsapp leads.

Here Are Shortener's Links Sites That Pays: Here are the popular link Shorteners that pays: Among them are

Make Money From Whatsapp Using Pay Per Download

This is one method you can use to make money from WhatsApp but it is not well utilized. What happens here is that you can upload files such as pictures, videos, music, games and so on to these websites and they pay you for every download.

Crazy, isn't it? Well, before the person gets to download, the sites will likely show them surveys or ads, after completing surveys or viewing ads, they download. That is how they make money to pay you in return for a great service promotion.

So, if you will like to use this method to make money from WhatsApp, all you have to do is build Whatsapp Leads Using [Whatsapp Bulk Sender](#) And Also join groups or make contacts with people who have an interest in a particular content.

Then upload the contents to any of the sites, share the link, they download, you make money. For an instant, you can join a gaming group or a comedy video group.
